In exercising our Sec 17 constitutional right, we direct this MEMORANDUM of demands to Mr Jonas Sello Lehare the, Mayor of Moretele Local Municipality, to the Speaker of Moretele council, Cllr Johannes Lesiba Magongwa, Ms Leaya Motsepe, the whole executive committee of MLM, as well as Mr Roger Nkhumise the Municipal manager and his entire subordinates.

2.

Note that after numerous communications to innumerable offices of this municipality, with a venture to parade our disgruntlements upon Moretele's incompetency and lack of sufficient skills in captivating accurate judgements of delivering services to the people of Moretele.

3.

The municipality is still comfortably fast asleep, as if nothing is happening, your continues ignorance to the heartbroken disgraceful cry from our communities who incessantly anguish illness called poor service delivery in some areas, and lack or no services at all in most areas of Moretele jurisdiction.

4.

This can never be right nor tolerated by the residents, hence we are now here to demand the disbanding of this dysfunctional bad performing municipality, because this institution is totally out of track, totally clueless of functions, duties, responsibilities and accountabilities of local government, totally lost the objective and the community's mission statement, Moretele has totally lost focus of the constituency needs, for the community that is supposed to be serving considerably with enthusiasm and passion, this municipality is totally not equal to the task required to perform by the compassionate municipality.

5.

Today we came here to remind the leadership of Moretele particularly EXCO and full time councillors that your time of occupying positions without skills and capacity of running your offices efficiently and effectively has reach a cul-de-sac, to the majority of ward councillors and ward communities who are enduring to misrepresent the mandates of our communities by only warming seats awaiting stipends without engaging in robust debates concerning

issues badly affecting our communities, bear in mind that you have not apply to become a public representative, electorates voted you into that office to assist with the process of ameliorating their lives, every time you failing the community who puts you there, never ever forget that your days in that office are numbered, you will soon be called the then egotistical leader. To the ruling party and its speechless oppositions in council kiss your seats goodbye in the prospective local elections

6.

We now demand that qualification checks must be done on all positions in the municipality and compare them with qualification requirements of positions they are holding. All those who don't meet requirements must be fired with immediate effect and we demand that we get full report on how they were appointed and people who appointed them must also leave the municipality in peace than in pieces.

7.

Moretele, as much as we confidently trust that you knows precisely the challenges harshly affecting the community of Moretele, nevertheless, **we also assume that our challenges has become sweetest music in your ears and you enjoy dancing to them**, and we are now going to repeat them for the last time **serenely**, because you have now drained out our patience, severe action will follow and you won't stand the heat!

8.

We came here to demand constant provision of the most vital need in our lives, which is water to the whole of Moretele Local Municipality from Mmakaunyane to Swartdam, Ratsiepane, Lebotloane to Ngobi, Ga-Habedi to Rabusula, Sutelong to Norokie, Mogogelo to Lefatleng, Makapanstad to Kgomo-kgomo to Swartbooi, Mathibestad to Diritig, Carousel view to Maubane, to name but the few, and this water must reach all 72 villages, all 28 wards allocated to Moretele for service delivery, by the 1st of July 2015.

We further demand R300.00's for yard connections that were collected by municipality from poor pensioners from 2003 together with its interest to be paid back within the next seven (7) days. They even threatened pensioners from various pension points that if they don't pay R300's immediately they will pay R1500.00. It has been twelve (12) years now and still there is no refund nor yard connections.

9.

Your issue of owing the City of Tshwane, millions of rand for water supply, can never be an excuse to hide your corrupt element and incompetency, and we don't want to hear it anymore, because it cannot be our problem, your deficient of financial management, monitoring and evaluation skills, is totally not for us, but your babe to deal with, we don't need any more excuse, **we are physically and emotionally tired, tired with your pre-school games of blank promises**, we don't need promises anymore, we need water! We need water to drink, yes we need water, and we need water to survive the poverty conveyed into our homes by Moretele municipality.

10.

We cannot accept this poor quality roads in and around Moretele Local Municipality any longer, poor roads where ambulances and police cannot drive through, poor quality roads that obstruct free flowing of schooling during rainy weathers since educators and learners cannot reach the learning, death traps roads of planted port holes which has now become the leading instrument of manufacturing road accidents in and around Moretele. Our roads must receive and immediate attention before is becoming too late for you to govern this institution. Mr Lehare is busy building island at his home village Moeka while the whole municipality is not getting same services. Paving of internal roads is direct responsibility of municipality and you can't shift the blame to rotten North West Department of Public Works under the lost leadership of Mr Madoda Sambatha who is originally from Kwangcobo in Eastern Cape which tells you that he does not care about people in North West. Mr Lehare we demand to have internal pavement roads like you did in your home village.

11.

We demand that you vomit the 12 million rands you have swallow which was mend for the installation of 112 high mass lights in various dark villages of Moretele. Crime kept escalating in our gloomy villages while more empty promises of electrifications, high mass and street lights installations keep on tarnishing our ears now and then in your Imbizos. We demand to know how the 12 million was spend as there is no high mass lights from Ga-Habedi, Sutelong, Dikebu, Lekgolo, Norokie, Mmatlwaela, Kontant but you decided to install two street lights per village and same is not even operational. In other areas like Mmakaunyane to Rabusula, Tladistad to Makapanstad, Mmotla and far North West of municipality there is nothing that was installed hence they were budgeted while in Swartdam high mass lights are there but most has never been switched on. This is like buying a new car thereafter you park in the garage for the rest of your life..... Fruitless expenditures.

12.

Ceremonial Mayor, Mr Jonas Sello Lehare, note that is an intolerable insult to human dignity and a violation of sec 9, 10 and 24 of ACT NO 108 of 1996, to provide citizens with buckets toilets in the second decade of RSA's Democracy, that is not the sanitation we were promised and it can never be right to possess health hazards to our people, this is not the better live we anticipated, is totally not democracy in action to forcefully impose buckets toilet when people needs running water and quality roads. Moretele Local Municipality is working against the will of our National Governance that all bucket system toilets must be faced out this year. R53 million was spend on that construction of useless, fruitless bucket system toilets. On a serious note

13.

Be cautious Moretele administrative! Promises without implementation is really making us **hatvol**, hatvol of your hidden agendas that only promote personal selfish interest, you must now show capability, integrity, efficiency and passion of salvaging Moretele community out of the sinking death trap of your poor services, into the better lives promised to our communities prior to all eight past democratic elections.

21 years down the line we still pleading for basic needs, top priorities of people's lives, WATER, APPROPRIATE ROADS, LIGHTS AND DECENT SANITATION for all not for the few selected favourites and you continue to have meetings about freedom charter like you did today.

15.

Mmakaunyane All sport complex and Makapanstad stadium must be completed, and be official handed over to the community for utilisation, our schools continues to utilise Temba stadium in Hammanskraal while budgeted millions to construct and complete the mentioned two facilities has evaporated into your blood sucking hands without trace, this is time to repay stolen millions back into the projects for completion.

16.

We demand progress report of Ngobi bakery that the municipality spent R4m to construct it more than half a decade ago but the bakery fail to produce a single bread nor a fat cake to date.

17.

Ceaseless wasteful and fruitless expenditures, over and under expenditures diagnoses by the auditor general year in year is an exhibition how useless is this municipality that is the reason we going continue demanding the shutting down of this clueless municipality of hell.

18.
