SECTION 1: INTRODUCTION

The Community Education and Training (CET) Colleges, as part of the Post-School Education and Training (PSET) system requires that a balance be reached amongst the following competing immediate priorities within the next three years as namely:

- standardization and stabilisation of the sub system post migration to the DHET;
- growth and sustainability of human resources within the sub-system to cope with a competitive post schooling sector; and
- streamlining of the current available human resources to ensure teaching and learning continues, improves and is not compromised in any way.

The draft policy on the staffing norms for CET Colleges as a proposal identifies the following core elements as the main drivers of the Staffing Norms Model for the CET Sector.

- 1. Equitable CET College budget allocation and distribution;
- 2. Programme Offerings as per approved Programme and Qualification Mix (PQM);
- Verified Full Time Equivalent (FTE) student enrolments that lead up to NQF level 4;
 and
- 4. CET College Medium Term Expenditure Framework(MTEF) Post Establishment

It should be noted that this draft policy on staffing norms for CET Colleges does not include any promotional posts at this stage, but introduces a standardised model for the compensation of employees, (the lecturers in the 9 CET Colleges) as transferred from the PED's to the DHET.

The draft policy introduces the support staff in the Community Learning Centres as an important element to assist the professional staff.

The draft policy also proposes a normed rationalised institutional landscape with normed class sizes.

SECTION 2: BACKGROUND

- Presidential Minute No. 690 of 2009 abolished the Department of Education and the Department of Higher Education and Training and the Department of Basic Education were created.
- 2. Following this re-organisation of government, Proclamation No. 44 of 2009, published in Government Gazette. No. 32367 of 1 July 2009, transferred the administration of the Adult Basic Education and Training Act, 2000 (Act No. 52 of 2000), and the Further Education and Training Colleges Act, 2006 (Act No. 16 of 2006), to the Minister of Higher Education and Training.
- The legislative responsibility for Adult Education and Training was transferred to the Minister of Higher Education and Training through the Higher Education and Training Amendment Laws, 2010 (Act No. 25 of 2010).
- The Further Education and Training (FET) Colleges Amendment Act, 2013 proposed a repeal of the Adult Education and Training (AET) Act 52 of 2000.
- 5. The Department of Higher Education and Training published the Whiter Paper for Post School Education and Training System, in November 2013. The White Paper states that Public Adult Learning Centres (PALC's) are to be absorbed into a category of institutions named Community Colleges, which cater for the provision of second-chance learning opportunities for out-of-school youth and adults.
- The Continuing Education and Training Act, 2006 (Act No. 16 of 2006) establishes the Community Education and Training Colleges (CETCs) as another institutional type within the Post- School Education and Training (PSET) system.
- In April 2014 the Minister of Higher Education and Training established the first nine (9)
 CETCs as Administrative and Management Centres for the 3276 former Public Adult Learning Centres (PALCs).
- 8. The nine Colleges are now the juristic persons in terms of the CET Act, 2006 (Act No. 16 of 2006), and the National Policy on Community Colleges provides a framework for the establishment of Community Colleges.

- The proposed staffing norms for the CET Colleges is a first step towards the standardization of the inherited diverse staffing models.
- 10. Section 20(1)(a) of the CET Act as amended reads: "The staff of public colleges consist of persons appointed by the Minister in terms of the Public Service Act in posts established on the organisational structure of the Department and identified as posts to the respective colleges"
- 11. The staffing norms comply with the objectives of the White Paper for Post- School Education and Training and provide for the following:
 - a) Access, flexibility, differentiation and expansion: CET Colleges are arguably operating at different times and levels. The staffing norms take into consideration the instructional times, the diversified learning programmes, curriculum delivery models and phasing in of the expansion of the Community College sector; all of which have an impact on the post distribution per College.
 - b) Programme Offerings: CET Colleges offer qualifications or part-qualifications that are registered on Levels 1 to 4 of the National Qualifications Framework (NQF). CET Colleges should be flexible in their programme offerings and should include programmes that respond to local community developmental priorities, as well as the priorities of the State.
 - c) Funding and distribution variables: The staffing norms for CET Colleges recognises that the current costing is budget driven at this stage. No programme costing exercise has been undertaken in the past, to accurately determine the actual costs for each programme offering.
 - d) Model Benchmarks: A Ministerial Task Team is working on a funding model for CET Colleges. It is envisaged that the model will be benchmarked against international trends for CET Colleges in order to determine the most flexible and differentiated variables relevant to the sector.
 - e) Nature of operation: CET Colleges differ in the nature of their operations in that some operate on full time basis, whilst others operate on part time basis.

SECTION 3: LEGISLATIVE FRAMEWORK

a) Basic Conditions of Employment Act, 1997(Act No. 75 of 1997) (as amended);

- b) Continuing Education and Training Colleges Act, 2006(Act No. 16 of 2006) (as amended);
- e) Labour Relations Act, 1995(Act No. 95 of 1995) (as amended); and
- d) Public Service Act, 1994(Act No. 103 of 1994) (as amended).

SECTION 4: POLICY STATEMENT

- 12. The staff of a public college consists of persons appointed by the Minister in terms of the Public Service Act in posts established on the organisational structure of the Department and identified as posts to the respective colleges.
- 13. The staff referred to in Section 4, paragraph 12 are remunerated from the funds allocated to the respective colleges in accordance with budget allocations of CET Colleges per Full Time Enrolments (FTEs).
- 14. The Compensation of employees' budget shall be capped at 75% of the total budget; of which 80% is allocated for lecturing staff and 20% for support services. This translate to a ratio of 1: 0.75.
- 15. 40% the total remaining 25% of the total budget should be reserved for goods and services for the CET Colleges.
- 16. Depending on the demand for and the nature (formal or informal) of programmes, posts in the CET Colleges should accommodate part-time, fixed term contracts and permanent posts.
- 17. All CET College staff are appointed under the Public Service Act, with Occupational Special Dispensation (OSD) applicable to professional staff with approved and relevant professional qualifications.
- 18. The CET Colleges will ring-fence the portion of posts for permanent appointments and remaining portion for part- time, fixed term contracts. The Standard Operating Procedure for the implementation of staffing norms will give full guidance on the proposed distribution.

- 19. Experience for lecturers (former AET practitioners) who have long service in the AET sector should be considered when they are recommended for appointments under the new staffing norms provided there is substantive proof.
- 20. Where overstaffing exists due to decline in learner enrolments redeployment process should apply provided the lecturer is appointed on permanent basis and avenues for reskilling where needs exists have been explored.
- Appointments in the CET Colleges should be in line with instructional times and therefore will vary from shared posts i.e. full time equivalents to full time posts.
- 22. Implementation of the staffing norms should be done in line with the approved protocols and the policy on Standard Operating Procedure for implementation of the Staffing Norms for CET Colleges.

SECTION 5: PROPOSAL FOR INSTITUTIONAL CONFIGURATION MODEL

23. The ultimate institutional landscape model for the CET Colleges is 52 Colleges distributed per municipality district. However, the reconfiguration process of the 3276 Community Learning Centres (CLCs), will determine the number of CLCs as per the approved norms.

COLLEGE

- 23.1. The size of a CET College will be classified as small, medium or large according to the number of enrolled FTEs as follows:
 - Small: 700- 1500 FTEs
 - Medium: 1501 -2500 FTEs
 - Large: 2501 and above FTEs
- 23.2. For the purpose of promoting access to learning the subsidiary sites of a College will include Community Learning Centres and Satellites. The CLC will be classified as follows:

COMMUNITY LEARNING CENTRES

Small: 201-350 FTEs

Medium: 351 -500 FTEs

Large: 551-699 FTEs

SATELLITE CENTRES

- The Satellite Centres must have between a minimum of 75 to a maximum of 200 students FTEs.
- These figures will be restricted to a three year cycle whereupon a similar grading exercise will be conducted to determine a new classification.

SECTION 6: CLASS SIZE NORMS

- 24. The student enrolment for the sub levels (AET level 1-3) programmes shall be not smaller than 1:20.
- 25. Student enrolment for NQF level 1 shall not be less than 1:25.
- 26. Depending on the nature of a particular skills programme, head count enrolment shall be a minimum of 15 and maximum of 30.
- The class sizes for the (National) Senior Certificate (for Adults) NASCA shall not be less than 1;30.
- 28. These class size norms shall apply to enrolment for full qualifications and part qualifications.

SECTION 7: GUIDELINES FOR OPERATIONAL TIMES

- 29. CLCs must be flexible to operate on full time basis as well as on part-time basis.
- 30. Centres with dedicated buildings must operate between 8:00 until 21:00 and should cater for learners that cannot attend during the day. The time table of a college must be sufficiently flexible to include Saturday classes.

31. The model is based on the principle that available posts are distributed amongst CET Colleges proportionally to their number of weighted students.

SECTION 8: CET COLLEGS DRAFT POLICY ON STAFFING NORMS MODEL

MODEL PRINCIPLES

- 32. The concept of "weighted student", instead of actual students, is used to enable the College to compete on an equal footing for posts. As some students and some learning areas/programs require more favorable post allocations than others, each student is given a certain weighting that reflects its relative need in respect of the staffing norms.
- 33. A weighted student enrolment for each CET College is determined, which, in relation to the total student enrolment, reflects its relative claim to the total pool of available posts.
- 34. 75% of the CET Branch budget allocation is reserved for lecturer and support staff of the Community Learning Centres in the 9 CET Colleges.

CORE ELEMENTS OF THE STAFFING NORMS FORMULA

FIXED ELEMENTS

- a) CET Branch budget allocation
- b) 75% of the total budget is ring-fenced for CET Colleges compensation of lecturer Employee staff
- c) The budget allocation to each CET College
- d) Programme offering/curriculum that each Campus(CLC) will pursue

SECTION 12: CONCLUSION AND RECOMMENDATIONS

- 35. It should be noted that the FTEs in CET Colleges will undergo a process of verification before correct budget allocations are issued. Section 11 is an example of indicative allocations.
- 36. The draft policy on staffing norms for CET Colleges will go through a process of consultation to relevant stakeholders.
- 37. It is the desire of the Department to implement this policy not later than September 2016 and Regional Offices will assist the CET Colleges to set up systems for the implementation of the staffing norms.
