5. Legislative Provisions

- 5.1 The Constitution of the Republic of South Africa, Act No. 108 of 1996;
- 5.2 The Use of Official Languages Act no. 12 of 2012;
- 5.3 Regulations in terms of the use of the Official Languages Act of 2012.

6. Principles

DWS's language policy is based on the following principles:

- 6.1 A commitment to the promotion of all official languages of South Africa;
- 6.2 Recognising that languages have the ability to maximise knowledge and expertise and to support community participation;
- 6.3 Understanding that good language management is needed to ensure efficient public service administration that will meet the needs of the public and promote equitable access to the services and information of the DWS;
- 6.4 Preventing the use of any languages for purposes of exploitation, domination and discrimination within the DWS;
- 6.5 Collaboration for the promotion of multilingualism.

7. Criteria for choosing DWS's working languages

7.1 Direction

The Regulations in terms of Section 13 of the use of the Official Languages Act of 2012 make reference to direction in the following:

"In order to determine its official languages as contemplated in Section 4(2) of the Act (see 1.3.2 (a, b, c) of DWS Policy), the national department, national public entity or national public enterprise must consider the factors as stipulated in Section 6(3) of the constitution, including:

- (i) Language use of members of the public that access the services of the national department, national public entity or national public enterprise, having regard to:
 - (aa) language needs of members of the public;
 - (bb) language statistics in the population census published by the Statistician-General in terms of Section 7 of the Statistics Act No6 of 1999;
 - (cc) research that the national department, national public entity or national public enterprise may conduct."

7.2 Adopted Principles

In line with the Direction above, Languages have been chosen for adoption by DWS based on the following principles:

- 7.2.1 The 2011 National Census Data, which presents the most commonly spoken languages in South Africa's homes.
- 7.2.2 The specific language needs of the members of the public.

7.3 Other language policy positions of DWS (particularly with regard to communicating with the public in the provinces):

- 7.3.1 DWS is conscious of the need to promote the parity of esteem and equitable treatment of official languages of the republic as per the provisions of the Constitution.
- 7.3.2 In line with this principle and to give effect to minority languages in the provinces, DWS extends its position to consistent use of these languages by looking at which languages, for practical purposes, are in common use per province.
- 7.3.3 The ideal situation would be to consult people in those areas to determine what languages DWS would be using to communicate with communities, based on the demands.

7.4 DWS will therefore adopt the following languages:

- 7.4.1 IsiZulu
- 7.4.2 IsiXhosa
- 7.4.3 Afrikaans
