**NATIONAL TREASURY****NO. 35****23 JANUARY 2018**

I, Malusi Gigaba, in my capacity as the Minister of Finance, hereby publish, in accordance with section 19, 20 and 21 of the Division of Revenue Act, 2017 (Act No. 3 of 2017) as amended by the Division of Revenue Amendment Act, 2016 (Act No. 10 of 2017), the attached Explanatory Memorandum and Schedules:

- (a) Additional conditional allocations to provinces and municipalities authorised in terms of the Adjustments Appropriation Act, 2017;
- (b) Roll-overs of conditional allocations to municipalities not transferred by national departments during the 2016/17 financial year, authorised in terms of the Adjustment Appropriation Act, 2017 (Act No. 12 of 2017);
- (c) The re-allocation of stopped conditional allocations between municipalities in terms of section 19 and 20 of the Division of Revenue Act, 2017, as amended; and
- (d) Technical adjustments on conditional allocations and frameworks to provinces and municipalities.

For ease of reference only and where applicable, the attached Schedules reflect the main allocations, roll-overs, adjustments, and total adjusted allocations.

**MALUSI GIGABA, MP**  
**MINISTER OF FINANCE**

## Explanatory Memorandum to the Allocations set out in the attached Schedule

This *Gazette* is published in terms of Section 26 of the Division of Revenue Act, 2017 (Act No. 3 of 2017) (DoRA), as amended by the Division of Revenue Amendment Act, 2016 (Act No.10 of 2017). Section 26 provides that any transfers not listed in the Schedules may only be made in terms of Section 6(3) which provides that additional allocations to provinces or municipalities may only be made in an adjustments budget and must comply with such monitoring and reporting requirements determined by the National Treasury. Further, Section 26 also requires that the National Treasury must publish such allocations in the *Gazette*, prior to the transfer of any funds to a province or municipality.

### Changes to provincial allocations

#### *Addition to the comprehensive HIV, AIDS and TB grant*

1. In order to support the national response programme and arrest the recent malaria outbreak in Limpopo and Mpumalanga, the comprehensive HIV, AIDS and TB grant is allocated an additional R19.8 million. Monthly malaria cases have substantially increased, and without a strong intervention programme, the major epidemic in southern Mozambique will further place South Africa at risk of even higher infection cases. The intervention will see an intensification of support for provincial prevention efforts; Limpopo and Mpumalanga are allocated R11.8 million and R8 million respectively for intervention purposes. These changes are shown in Schedule 5, Part A of the Bill.

#### *Conversion of health facility revitalisation grant allocation from Schedule 6, Part A (indirect) to Schedule 5, Part A (direct)*

2. R30 million of the health facility revitalisation grant will be converted from Schedule 6, Part A (indirect) to Schedule 5, Part A (direct) for North West. This will relieve pressure on health infrastructure projects that, though previously funded through the indirect grant, are now being implemented by the North West provincial Department of Health. These changes are shown in Schedule 5, Part A (direct) and Schedule 6, Part A (indirect) of the Bill.

#### *Declared unspent funds from the school infrastructure backlogs grant*

3. R415 million in unspent funds has been declared as savings on the school infrastructure backlogs grant due to the poor spending performance as a result of delays in appointing contractors, finalising the merger and rationalisation of schools in the Eastern Cape and in reappointing contractors where the services of non-performing contractors were terminated. These changes are shown in Schedule 6, Part A of the Bill.

### Changes to local government allocations

#### *Re-allocation of funds between municipalities*

4. The Neighbourhood Development Partnership Grant (NDPG 5B and 6B) is being stopped from 13 and re-allocated to 6 municipalities (in terms of section 19 and 20 of DoRA respectively) due to slow procurement processes and significant under spending of the 2017/18 grant allocation. These funds will be re-allocated to municipalities that have fast tracked the implementation of their projects and have

accelerated expenditure against their original allocations, also have capacity and capability to absorb additional allocations.

5. The department of Energy (DoE) is stopping and re-allocating funds between municipalities, under the Integrated National Electrification Programme (INEP 5B) due to under performance by municipalities against their 2017/18 allocation.
6. The Infrastructure Skills Development Grant (ISDG) is stopping from Enoch Mgijima Local Municipality (LM) and Rand West City LM amounts of R1.8 million and R2.1 million respectively. The stopped amounts are being re-allocated to eThekweni Metropolitan municipality in KwaZulu-Natal, Polokwane LM in Limpopo and George LM in the Western Cape due to institutional and managerial issues in Enoch Mgijima LM and Rand West City LM rendering ISDG implementation non prolific.
7. The department of Water and Sanitation (DWS) is stopping and re-allocating funds between municipalities for the two grants, namely: the Water Services Infrastructure Grant (WSIG 5B and 6B) and the Regional Bulk Infrastructure Grant (RBIG 5B and 6B). The reason for stopping the allocation is due to underperformance by municipalities on the direct component (Schedule 5B) and the fact that DWS anticipates underspending against the indirect component of the grant allocation (Schedule 6B).

*Roll-over of funds for the municipal demarcation transition grant*

8. An amount of R27.9 million is rolled-over for the municipal demarcation transition grant for funds originally allocated to municipalities in KwaZulu-Natal in 2015/16. These funds were initially rolled-over in 2016/17 after the funds had been converted from a direct to an indirect grant allocation at the end of 2015/16. However, the conversion occurred very close to the end of the financial year, leaving too little time for the funds to be spent. The funds were rolled-over in 2016/17 as an indirect grant but went unspent as the modality for spending them as an indirect allocation could not be agreed on. In 2017/18 they will now be rolled-over as a direct grant and transferred to municipalities to reimburse their expenditure incurred in line with the conditions of the grant in preparation for the municipal mergers that came into effect in August 2016.

*Additional allocations to support disaster relief and recovery*

9. R26.1 million has been allocated for the repair of sinkholes and the damage to infrastructure resulting from sinkholes in the area of Merafong City Local Municipality. These funds will be allocated through the municipal disaster recovery grant (this grant will have to be reactivated in the 2017 Division of Revenue Amendment Bill). These changes are shown in Schedule 5, Part B of the Bill.
10. For 2017/18 the allocation for the indirect regional bulk infrastructure grant will be increased by R200 million for Butterworth's emergency water supply scheme to respond to drought pressures. These additional funds will be spent by the national Department of Water and Sanitation on behalf of the municipality in order to leverage economies of scale in purchasing. The assets will be transferred to Chris Hani District Municipality after completion. These changes are shown in Schedule 6, Part B of the Bill and in Annexure 6 to the Bill.

*Correction of rounding error in the Public Transport Network Grant allocation Baseline*

11. In the 2017/18 Public Transport Network Grant allocations, the allocations submitted had decimals and due to formatting, the decimals were not apparent. On the excel file submitted the total baseline allocation for the grant is reflected correctly as

R6 159 559. However, when manually adding the individual allocations to the municipalities, the total for the grant becomes R6 159 560, meaning it is over by R1 000 as a result of the decimals. Department of Transport (DoT) as the Transferring Officer wrote to the municipality affected – being Buffalo City in this case as recommended by DoT – to request concurrence to reduce their allocation by R1 000, to which the municipality agreed. DoT then wrote to National Treasury requesting correction of this error, which is to be corrected with this gazette.

*Additional allocation for bucket eradication programme*

12. The allocation for the bucket eradication programme is increased by R265 million to allow the national Department of Water and Sanitation to continue bucket eradication projects that the department had identified and committed to implementing (i.e. for the eradication of bucket sanitation in formal areas). This increase is funded through the reprioritisation of funds within the department from compensation of employees (R45.1 million), payments of capital assets (R214.5 million) and goods and services to support indirect water services infrastructure grant (R5.4 million).
13. The changes are reflected in Schedule 6, Part B of the Bill and more details of the allocations per municipality are in Annexure 6 to the Bill. These reprioritised funds will add to the R385.6 million allocated for the bucket eradication programme in formal settlements at the beginning of 2017/18 within the regional bulk infrastructure grant (R240.6 million) and water services infrastructure grant (R145 million). The eradication of bucket sanitation in informal settlements continues to be funded through the urban settlements development grant and the municipal infrastructure grant.

**Changes to gazetted frameworks**

*Substance abuse treatment grant*

14. The grant framework for the substance abuse treatment grant will be corrected so that the due date for the submission of business plans reads 1 March 2017, instead of the current 1 February 2017.

*National tertiary services grant and health professions development and training grant*

15. The due date for submission of the list of specialists paid from both the provincial equitable share and the health professions development and training grant will be corrected from 28 February 2017 and 31 March 2017 to 30 November 2017. A condition that required the national Department of Health and National Treasury to discuss funding for a review was included twice in the conditions section. This duplication is corrected. The framework is also corrected to rectify the omission of the line specifying the scheduling of the grant. The above-mentioned amendments (excluding the duplicate condition) are also mirrored in the framework for the national tertiary services grant.

*National health insurance grant: ideal clinics component*

16. Under the outputs section of the grant framework, the number of facilities to be peer reviewed is amended from 1 700 to 500 clinics. The former target was erroneously captured as it is the cumulative target for the 2017 MTEF, not the single year target in line with the grant's 2017/18 business plan.

*National health insurance grant: health professionals contracting component*

17. This component of the national health insurance grant erroneously included a responsibility for the national Department of Health that duplicated reporting requirements that were meant to only apply to infrastructure projects in the national

health insurance grant: health facility revitalisation component. This responsibility, which is not aligned to the objectives of the national health insurance grant: health professionals contracting component will therefore be removed from the framework for this component.

*Comprehensive HIV, AIDS and TB grant*

18. The comprehensive HIV, AIDS and TB grant framework is amended to include a window for the funding of the malaria outbreak relief intervention.

*Municipal disaster recovery grant*

19. The municipal disaster recovery grant framework is being gazetted for 2017/18. This grant did not form part of the Division of Revenue Act, 2017, but has now been allocated in response to the need to repair sinkholes and infrastructure damage caused by sinkholes in the Merafong Local Municipality. The conditions in this grant framework are the same as for previous years when this grant existed. They include the following requirements to govern the use of disaster funds:
20. Business plans in line with post verification assessment reports must be submitted to the National Disaster Management Centre.
21. Disaster reconstruction and rehabilitation funds may only be used for approved projects.
22. Quarterly reports on expenditure on disaster projects must be submitted to the National Disaster Management Centre.

**Changes to gazetted allocations**

23. Details per municipality of the changes to allocations for the municipal disaster recovery grant, regional bulk infrastructure grant and the water services infrastructure grant that have been described in part 2 of this memorandum will be gazetted. These changes per municipality are shown in annexures 4, 5 and 6.
24. Details of the changes per provincial department for allocations for the national health insurance indirect grant for provinces are shown in Appendix 1. These changes relate to the conversion of health facility revitalisation grant allocation from Schedule 6, Part A (indirect) to Schedule 5, Part A (direct) that was described in part 2 of this memorandum. Furthermore, the allocation for the health facility revitalisation component of the national health insurance indirect grant has been reduced by R200 million, these funds will be shifted to the health professionals contracting component of the same grant.
25. This will alleviate spending pressures emanating from the payment of private general practitioners contracted to work in primary healthcare facilities as well as the increased enrolment of patients to the Centralised Chronic Medicines Dispensing and Distribution (CCMDD). The reduction of the health facility revitalisation component budget will be accommodated by delaying non-critical infrastructure projects and prudent project and expenditure management. Details per province of the changes to the schools infrastructure backlogs grant allocations relate to the anticipated underspending in this grant.

**Amendments to the local government payment schedule**

26. The 2017/18 original payment schedule was approved by the Director-General on 29 June 2017 in terms of Section 23 of the DoRA, 2017.

27. All the proposed changes to the original payment schedule in this submission form part of the 2017 Adjustments Appropriation Act, (Act No. 12 of 2017) and will translate into an amendment in the flow of funds which means the originally scheduled allocations have to be amended likewise. The original payment schedule approved by the Director-General will accordingly be adjusted within the requirements of the Division of Revenue Act, 2017 as amended. This will be done in a separate submission.

**ANNEXURE 2:**

**FRAMEWORKS FOR CONDITIONAL  
GRANTS TO PROVINCES**

## **Annexure 2: Frameworks for Conditional Grants to Provinces**

### **Detailed frameworks on Schedule 4, Part A; Schedule 5, Part A; and Schedule 6, Part A grants to provinces**

#### **Introduction**

This annexure provides the revised frameworks for grants set out in Part A of Schedules 4, 5 and 6 of the 2017 Division of Revenue Amendment Bill. The following are key areas considered for each grant:

- Strategic goal and purpose of the grant
- Outcome statements and outputs of the grant
- Priority outcome(s) of government that the grant primarily contributes to
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between municipalities
- Rationale for funding through a conditional grant
- Past performance
- The projected life of the grant
- 2017 MTEF allocations
- The payment schedule
- Responsibilities of transferring national department and receiving provinces
- Process for approval of business plans for 2018/19

The attached frameworks are not part of the Division of Revenue Amendment Bill, but are published in order to provide more information on the grants to parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the 2017 Division of Revenue Amendment Bill is enacted, the frameworks will be gazetted.

The financial statements and annual reports for 2017/18 will report against the Division of Revenue Act, Division of Revenue Amendment Act and their schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.

**ANNEXURE 3:**

**FRAMEWORK FOR CONDITIONAL  
GRANT TO MUNICIPALITIES**

## **Annexure 3: Framework for Conditional Grant to Municipalities**

### **Detailed framework on Schedule 5, Part B grant to municipalities**

#### **Introduction**

This annexure provides the framework for a grant set out in Part B of Schedule 5 of the 2017 Division of Revenue Amendment Bill. The following are key areas considered for each grant:

- Strategic goal and purpose of the grant
- Outcome statements and outputs of the grant
- Priority outcome(s) of government that the grant primarily contributes to
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between municipalities
- Rationale for funding through a conditional grant
- Past performance
- The projected life of the grant
- 2017 MTEF allocations
- The payment schedule
- Responsibilities of transferring national department and receiving municipalities
- Process for approval of business plans for 2018/19

The attached framework is not part of the Division of Revenue Amendment Bill, but is published in order to provide more information on the grant to parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the 2017 Division of Revenue Amendment Bill is enacted, the framework will be gazetted.

The financial statements and annual reports for 2017/18 will report against the Division of Revenue Act, Division of Revenue Amendment Act and their schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.
