Please be advised that this principle approval relates only to the total length, overall width, front overhang and axle masses as applied for. Please note that the front overhang of the furthest point of the central unit (the boom) must always be within the outer minimum turning circle of the vehicle. It is your responsibility to make sure that you comply with all other requirements not herein applied for.

Please be advised that this principle approval relates only to the total length, overall width, front overhang and axle masses as applied for. Please note that the front overhang of the furthest point of the central unit (the boom) must always be within the outer minimum turning circle of the vehicle. It is your responsibility to make sure that you comply with all other requirements not herein applied for.

This principle approval is based on the technical specifications submitted in relation to the vehicle described above, as well as the intended use described in the motivation. It is at your own risk if you purchase, import or manufacture an abnormal vehicle without first obtaining an approval in principle. This does not exempt the MIB from following the normal homologation process for registration and licensing on the NaTIS. Any deviation from the specifications of the original application, or the intended use described in the motivation, will result in this approval being null and void.
